

## LOW VOLTAGE SENSORS

# T-PROBE

For temperature measurements with PT-1000 sensors from -40°C to +105°C. Automatic probe identification.

### Features

- Compatible with MULT 4 and MULTI 8

### Version

- Acid resistant
- The measuring range covers -40 bis +105 °C
- Resolution: 0.1° C

### Scope of delivery

- Data cable = L2 (1...5 m)
- PT1000-Sensor-cable= L1 (2 m)

### PT-1000 Measurement Ranges

Measurement Ranges [°C]	Resolution/Bit [°C]
-40 °C to 105 °C	0.1 °C
